Summary

Product manager and designer with 3+ years of experience designing enterprise and AI software, from low-code platforms to govtech. Takes AI products from customer interviews to launch, turning complex workflows into tools people can use from day one.

Experience

Polimorphic — AI customer service and CRM for 100+ local governments

Product Manager — Aug 2026 – Present
Senior Product Designer — Jul 2026 – Aug 2026
Product Designer — Dec 2025 – Jul 2026

- Own roadmap, prioritization, and launch strategy as sole PM, reporting to the CTO and leading 15 engineers across two teams; driving 6 features to launch while also serving as lead designer
- Run monthly discovery with city and county staff (10+ customer calls); interviewed 5 local government leaders to define a new role-based home screen 0→1
- Redesigned and launched the Work Order View, the most-visited page for daily users, now with 140 active users; validated through on-site usability tests with IT and 311 staff
- Led a platform-wide design system overhaul: built the Figma library and 30+ coded components, and merged 64 PRs to migrate ~40 pages

Appian — Low-code automation platform

UX Designer II — Oct 2024 – Dec 2025
UX Designer — Jul 2023 – Oct 2024
UX Intern — Jun 2022 – Aug 2022

- Made Appian's design system machine-readable through MCP servers, cutting guideline update time from several months to one week with agentic workflows
- Redesigned the Interface Designer, where 5,000+ developers build every form and page in their apps, improving performance and making it easier for first-time users to learn
- Defined AI-first development workflows with PM and engineering, helping developers of all skill levels build polished UIs quickly
- Ran 20+ usability studies across 5 product areas; findings decided whether projects moved forward, pivoted, or changed scope
- As an intern, designed and shipped an account creation template that gives developers a pre-styled starting point for new projects

Warner Bros. Discovery — Global media and entertainment company

UX Intern — Jan 2022 – Apr 2022

- Built 30+ FigJam workshop templates for the design and product team, and synthesized competitive research and App Store reviews into UX opportunities

Education

Duke University — Aug 2019 – May 2023

B.S. in Computer Science; Minors in Visual Media Studies and Biology
Durham, NC | GPA: 3.95

Expertise

Product: Roadmapping, prioritization, go-to-market, customer discovery, PRDs

Design & Research: Design systems, interaction design, prototyping, usability testing, user interviews, A/B testing

Product Launch: In-product guides and surveys, release notes, changelogs, documentation, onboarding

Tools: Figma, Amplitude, Linear, Cursor, Claude, Lovable, HTML/CSS
